

THE 5/20 PROJECT

For God so Loved He Gave...

Kingdom Principles: 163

A re-formation of how believers view Sharing everyday Kingdom life in real time with Jesus.

Traditional evangelism often begins with:

- approaching strangers,
- presenting information,
- trying to convince,
- and hoping for a response.

The 5/20 Project shifts the starting point.

It begins with:

- identity in Christ,
- listening to Holy Spirit,
- preparation with expectation,
- and responding in real time to people God highlights.

The \$20 is not the mission.
It is the training wheel.

The real purpose is helping believers become comfortable recognizing and responding to the living compassion of Jesus flowing through them naturally.

Just like training wheels help someone discover balance without fear, the 5/20 teaching gives believers a simple, practical way to begin moving in:

- hearing,
- noticing,
- trusting,
- responding,
- and loving in real time.

Eventually the goal is not dependence on the “tool,” but confidence in the relationship.

The oversized bicycle is Kingdom living itself.

Many believers deeply love Jesus, yet feel stuck because they associate compassion ministry with:

- pressure,
- performance,
- public confrontation,
- fear of rejection,
- or not knowing what to say.

The 5/20 Project lowers the intimidation barrier.

It says:

- Slow down.
- Prepare your heart.
- Expect Holy Spirit to lead.
- Carry compassion intentionally.
- Watch for who God highlights.
- Respond simply.
- Let people know:
“Jesus sees you. Jesus loves you.”

That changes everything.

Instead of striving to “do evangelism,” believers begin experiencing what it feels like to live aware of the Kingdom in ordinary moments.

The beauty is that the act itself becomes experiential proof:

- God still speaks.
- People still matter deeply to Him.
- Compassion still opens hearts.
- Love is still powerful.
- The Kingdom is still present now.

And the influencer model becomes multiplication, not marketing.

We are not merely asking influencers to promote a project.
We are inviting them to experience a lifestyle.

Once someone personally experiences a real-time encounter where:

- Holy Spirit highlighted someone,
- they responded,
- and the person felt deeply seen and loved,

fear begins losing authority.

That is why the “training wheels” analogy is so powerful.

The goal is not permanent dependence on the method.

The goal is developing confidence in hearing and responding to love.

The 5/20 Project exists to help believers move from fear and hesitation into real-time demonstrations of God’s love through simple, Spirit-led acts of compassion that reveal to people: “Jesus sees you. Jesus loves you.”

Preparing believers to recognize and respond to Holy Spirit in real time through practical acts of compassion.

The 5/20 Project is not about giving money away.

It is about helping people discover what it feels like to walk with Holy Spirit in real time.

The \$20 is simply the training wheel that helps believers overcome fear and begin moving in the naturally supernatural love of Jesus.

The Stories that have followed and the invitations that have followed into a loving community.

One of the most powerful confirmations of The 5/20 Project has been the countless stories that continue to emerge from simple acts of Spirit-led compassion. Again and again, individuals who felt unseen, forgotten, overwhelmed, or isolated have encountered not just practical help, but the unmistakable feeling that God was aware of them personally. Many moments have ended in tears, prayer, restored hope, renewed faith, and ongoing relationships. What began as a simple real-time act of generosity often opened the door to deeper conversations, continued connection, invitations into authentic loving community, small groups, churches, friendships, and support systems where people could continue growing and healing. These encounters consistently reveal that when believers respond to Holy Spirit in real time, compassion becomes more than an event—it becomes a bridge into belonging, relationship, and the living experience of the Kingdom of God.

The 5/20 Project and its teaching is designed to come alongside and strengthen existing Kingdom-focused ministries, churches, conferences, home groups, and identity-based communities by providing a simple, practical framework for activating real-time compassion. Rather than replacing what ministries are already doing, the project functions as a bridge between teaching and lived experience—helping believers move from simply hearing about the love of God to confidently expressing it in everyday life. The 5/20 Project naturally dovetails into ministries centered on identity in Christ, grace, Holy Spirit leadership, discipleship, outreach, healing, and Kingdom living by offering believers an approachable way to practice listening, trusting, and responding to Holy Spirit in real time.

Conference leaders and pastors are discovering that these teachings create a tangible pathway for people who desire to live a naturally supernatural lifestyle but may feel intimidated by traditional models of evangelism or outreach. Through simple preparation, expectation, and practical activation, participants begin experiencing firsthand that compassion is not reserved for a select few, but is available to every believer willing to respond to the love already alive within them. The simplicity of carrying intentional generosity as a “training wheel” helps remove fear, performance pressure, and uncertainty, creating opportunities for authentic encounters where people genuinely feel seen, valued, and loved.

As these experiences unfold, many stories continue to emerge of lives impacted, relationships restored, hope renewed, and individuals finding connection within loving communities, churches, home groups, and Kingdom-centered relationships. The 5/20 Project ultimately serves as an activation tool—helping ministries cultivate believers who are not merely informed about the Kingdom of God, but increasingly confident in demonstrating it in real time through everyday acts of Spirit-led love.

Kingdom Regards,

Michael Pohl
